This computer is connected to a network. Windows will automatically apply the correct network settings based on the network's location.			
Home network If all the computers on this network are at your home, and you recognize them, this is a trusted home network. Don't choose this for public places such as coffee shops or airports.			
Work network If all the computers on this network are at your workplace, and you recognize them, this is a trusted work network. Don't choose this for public places such as coffee shops or airports.			
Public network If you don't recognize all the computers on the network (for example, you're in a coffee shop or airport, or you have mobile broadband), this is a public network and is not trusted.			
Treat all future networks that I connect to as public, and don't ask me again.
