

Setup on MacOS

1. System Preferences > Internet Account

2. Add then select "Exchange"

3. type your name and email

A screenshot of the Microsoft Exchange setup window. At the top is the Exchange logo. Below it, the text "To get started, fill out the following information:" is displayed. There are two input fields: "Name:" with the text "Student" and "Email Address:" with the text "6234567890@student.chula.ac.th". The email address field is highlighted with a blue border. At the bottom, there are two buttons: "Cancel" and "Sign In".

Exchange

To get started, fill out the following information:

Name: Student

Email Address: 6234567890@student.chula.ac.th

Cancel Sign In

4. click "Sign In"

A screenshot of the Microsoft Exchange sign-in screen. At the top is the Exchange logo. Below it, the text "Sign in to your Exchange account using Microsoft?" is displayed. Underneath, a message states: "Your email address will be sent to Microsoft to discover your Exchange account information." At the bottom, there are three buttons: "Cancel", "Configure Manually", and "Sign In". The "Sign In" button is highlighted with a red border.

Exchange

Sign in to your Exchange account using Microsoft?

Your email address will be sent to Microsoft to discover your Exchange account information.

Cancel Configure Manually Sign In

5. type your password
