

Checking the program version and updating the program on PC or Mac

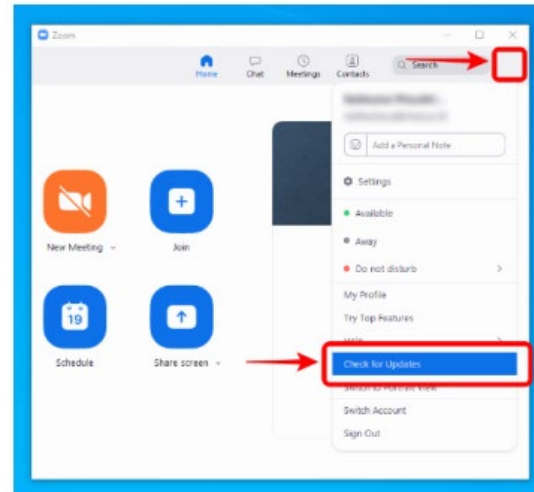

Checking the current program version

1. Log in to Zoom.
2. Click the profile picture> Click Help> Select About Zoom

Checking for updates

1. Log in to Zoom
2. Click Check for Updates

3. The program will show the current Zoom version.

3. If there are updates available, the program will ask you to update.

**For information about how to log in Zoom, go to <http://www.chula.ac.th/chulazoom> under “Manual” or scan this QR code.

**If the user has not logged in, he/she will not be able to update the program using this method. Please download the new program version and replace the old program. Download program at <https://zoom.us/download>
